

C. Steinweg - Project Cargo

Who we are

Since its founding in 1847 in Rotterdam, the C. Steinweg organisation has grown into a multinational logistics company that offers stevedoring, warehousing and forwarding services in various locations in Europe, Asia, Africa and the America's. Due to our origin as a commodity warehouse for the metals, ferro alloys and steel industries, Steinweg has always been close to the mining companies and has over the years become more and more active in project cargo.

The C. Steinweg Group is asset-based and operates an international network of ocean terminals and warehouses. Many of those companies are real specialists in the handling of projects, since our port facilities are very well equipped to handle all kinds of project cargo. We offer outside and inside storage, global forwarding as well as inland distribution by every possible means of transportation.

The industries served by C. Steinweg are:

- Power
- Mining
- Infrastructure
- Oil & Gas
- Manufacturing
- Construction
- Windmills
- Renewables

Discretion, reliability, neutrality, confidentiality and security play vital roles in conducting our business. Because of this C. Steinweg is a truly global company that confronts the challenges of the 21st century.

C. Steinweg was founded in 1847 in Rotterdam by Constantin Steinweg and has always remained a privately owned company. During the years we developed into the multinational logistics group we are today while maintaining our status as independent company.

Global know how

In every industrial project, logistics are an essential and critical part of its success and the risk factors need to be carefully evaluated so as to avoid damages, losses and delay. We as C. Steinweg guarantee careful planning, experience and know-how.

C. Steinweg's Project Cargo division consists of dedicated teams that put their expertise and worldwide network at the disposal of our clients in every stage of the task. With more than 150 years of experience, it is our philosophy that the customer's satisfaction is based on the result of excellence, quality, communication and performance.

Whether it is an entire production plant or a single piece of machinery, C. Steinweg is there for all your transportation needs.

What we offer

Transport Architecture: with an active presence in over 100 ports we offer our customer consulting services examining the logistic characteristics of every cargo movement. We offer the highest quality performance, with a coordinator appointed to supervise along the entire duration of the project.

Multimodal Transport: after an extensive case study, Steinweg will recommend the best combination of air, land and sea transportation to suit your specific needs.

Turnkey Solutions: our strength is our worldwide network. With existing operations in more than 40 countries, we combine the know-how of more than 400 forwarders with our large port and warehousing operations. This enables us to provide door-to-door services for customers, regardless of the size and shape of the cargo.

What we offer

Stevedoring and port operations: we operate our own stevedoring terminals in the following ports.

- Rotterdam, here we operate our main terminals. These are the Hartel terminal (Deep Sea terminal with 130.000m² of space), the Botlek terminal (289.000m²), the Beatrix terminal (250.000m²) and multiple smaller terminals with a total in Rotterdam of more than 2 Mln m².
- Antwerp, 1000m quay and 200.000m² space
- Hamburg, 1350m quay and more than 100.000m²
- Genoa, 925m quay and 80.000m²
- Trieste, 322m quay and 76.500m²
- Sohar, 950m quay and 40.000m²
- Baltimore, BMCT Terminal, 300m quay and 67.000m²

Warehousing: one of our core activities is the warehousing of a variety of commodities. C. Steinweg's facilities are fully recognized by major international banks and insurance companies. With the cargo documentation provided by us, we facilitate financing and insurance of stocks held in our custody.

Chartering: a dedicated department at our Rotterdam headquarters, supported by our overseas offices worldwide, is monitoring vessels position on a daily basis to meet our customers shipping requirements. All this is done in a confidential way, ensuring your business remains yours and no one else's.

Quality: obviously we abide by various types of legislation related to handling, storage and transportation. We maintain safe working conditions which are controlled by our Safety Control System, follow regulations according to the Health & Safety Act and provide security maintained by the regulations of **ISPS, C-TPAT**. Our Management System is certified according to the Quality Standards of **ISO 9001: 2008** and we are **AEO** certified in our EU locations.
